

Friedrich-Stammberger Foundation

Chairman: Dr. Werner Stackebrandt

Treasurer: Dr. Heinz-Gerd Röhling

Purpose of the foundation: The Friedrich-Stammberger-Foundation was established on April 20th, 1978 by Gabriele Stammberger fulfilling the will of her late husband, Prof. Dr. Friedrich Stammberger. The purpose of the foundation is the promotion of geoscientific research, in particular carried out by young scientists, and the support of cooperation between eastern European geoscientists and the Deutsche Gesellschaft für Geowissenschaften (DGG).

Aims of the foundation will be achieved in particular through:

- Grants for publications in DGG journals
- Grants for geoscientists and geo-societies from eastern European countries to support subscription of DGG publications and travel grants for DGG conferences.

During the annual session in December, the foundation board decides on the grants on the base of written applications.

Please submit applications to:

Prof. Dr. Christoph Breitkreuz
Institut für Geologie
TU Bergakademie Freiberg
